

Botanical Name	Common Name	Light	Water	Additional Care Info	Pet Safe (Cats/Dogs)
Adromischus	Adromischus	Bright Light	Dry	Native to South Africa. Cool weather grower. Water regularly during the active growing season (early Fall - early Spring), making sure to keep water off foliage and allowing soil to dry between waterings. Reduce watering during the summer.	No
Agave angustifolia	Caribbean Agave	Full Sun to Part Shade	Dry	Native to Costa Rica, Central America & Mexico. The juice of this plant is used to make mezcal. Minimum temperature of 25F. Can flower after 10 years. Will flower only once but produce bulbils that can be propagated. Do not repot often, does well when moderately root bound. *Inner sap is an irritant.	No
Agave lophantha	Thorncrest Century Plant	Full Sun	Dry	Flowers only once by growing a tall center stem to produce flower (this can take 5 - 40 years). Repot every 2 years. *Inner sap is an irritant.	No
Agave lophantha quadricolor	Century Plant	Full Sun	Dry	Flowers only once by growing a tall center stem to produce flower (this can take 5 - 40 years). Repot every 2 years. *Inner sap is an irritant.	No
Agave vilmoriniana	Octopus Agave	Full Sun	Dry	Native to Mexico; cliffsides of Sonora, Aguascalientes and Durango. Tolerates temperatures as low as 24F. Flowers only once by growing a tall center stem to produce flower (this can take 7 - 10 years). In Mexico, the fibers of the leaves are made into a brush that has its own soap provided by the saponigens that naturally occur in the plant. *Inner sap is an irritant.	No
Aloe sp.	Aloe	Full Sun to Part Shade	Medium to Dry	An easy to maintain house plant. Sunny conditions are needed for flowering, but aloe does fine with partial sun.	No
Crassula arborens	Silver Jade	Part Shade	Medium	Native to South Africa. Leaves look like fingers. When grown in direct sun, the leaves can acquire a red tint.	No

Botanical Name	Common Name	Light	Water	Additional Care Info	Pet Safe (Cats/Dogs)
Crassula ovata	Bugle Jade	Part Shade	Medium	Native to South Africa. Leaves look like fingers. When grown in direct sun, the leaves can acquire a red tint.	No
Crassula ovata	Jade Plant	Part Shade	Medium	Native to South Africa. As a houseplant, can grow 18 - 30 inches tall. As it matures, its trunk-like succulent stems can start to look like a miniature tree. When grown in direct sun, the leaves can acquire a red tint.	No
Crassula ovata variegated	Variegated Jade Plant	Part Shade	Medium	Native to South Africa. Leaves have green and white stripes. When grown in direct sun, the leaves can acquire a red tint.	No
Crassula perfoliata	Propellor Plant	Full Sun to Part Shade	Medium to Dry	Native to South Africa. Requires bright light to bloom and minimum temperature of 40F. Take outdoors from late spring through early fall and bring indoors for the winter. Reduce watering and keep indoors at a cooler temperature during the winter.	No
Echeveria	Hen and Chicks	Full Sun	Low	Native to the mountains of Mexico, Central America and South America. Water deeply (until water flows through drainage holes) but try not to get water on the foliage and allow to dry between waterings. They do well in average household temperature and humidity levels. They can tolerate light frosts but should not be kept at below freezing temperatures on a consistent basis. Only replot when plants outgrow their containers.	Yes
Euphorbia ammak f. monstrosa	African Candelabra	Full Sun to Part Shade	Dry	Native to Saudi Arabia and Yemen but common in South Africa. Prefers full sun and consistent warmth (74-82F) but can tolerate temperatures as low as 32F for short periods of time. Does not tolerate wet conditions in Winter. <b>White inner sap is poisonous and can irritate eyes so be cautious when trimming or handling these plants.</b>	No

<b>Botanical Name</b>	<b>Common Name</b>	<b>Light</b>	<b>Water</b>	<b>Additional Care Info</b>	<b>Pet Safe (Cats/Dogs)</b>
Euphorbia enormis	Euphorbia enormis	Full Sun to Part Shade	Dry	Slow-growing species. Water deeply in the summer when the soil is dry several inches below the surface but keep almost dry in the winter. Has a milky sap that can irritate human skin.	No
Euphorbia nerifolia f. cristata	Oleander-leaved Spurge	Full Sun to Part Shade	Dry to Medium	Native to East Asia to South China, India, An erect, branched prickly succulent shrub. This plant is poisonous and skin contact with the sap can cause blistering. The leaves and roots have been used as a fish poison.	No
Euphorbia pseudocactus	Candelabra spurge	Full Sun	Dry	Native to South Africa. An easy care plant. Active growing season is Spring-Early Fall. During this time, plant prefers average room temperature (65-75F) and enough water to moisten the potting soil (but allow 2/3 of the soil to dry between waterings). In Winter, reduce watering (just enough to keep potting soil from drying out completely) and keep at temperature of 55F so that plant can have a dormancy period. Thorns are sharp and sap can irritate skin.	No
Gasteria sp.	Ox Tongue	Part Sun	Dry to Medium	White or yellow leaves can indicate too much sun. Does best with some light shade/ indirect sunlight. Slow growing.	Unknown
Graptopetalum paraguayensis	Ghost Plant	Full Sun to Part Shade	Dry to Medium	Native to Mexico. Rosettes can grow up to 4 inches wide. When grown in full sun, plants will turn yellow-pink but in shade, will be bluish-grey.	Yes
Haworthia sp	Cushion Aloe Plant	Part Sun	Dry	Prefer warm temperatures in summer and cool in the winter (can tolerate 50F). Requires good ventilation. Water evenly and generously in summer but allow soil to dry between waterings. Reduce watering in winter. Grow in clusters but grow slowly. Do not repot until the cluster outgrows its container.	Yes

<b>Botanical Name</b>	<b>Common Name</b>	<b>Light</b>	<b>Water</b>	<b>Additional Care Info</b>	<b>Pet Safe (Cats/Dogs)</b>
Kalanchoe arborescens	Kalanchoe	Full Sun to Part Shade	Dry to Medium	Native to Madagascar. Prefer warmth and a minimum temperature of 55F. Water regularly in the Summer but allow soil to dry between waterings. Reduce watering in Winter.	No
Kalanchoe beharensis	Velvet Leaf Kalanchoe	Full Sun to Part Shade	Dry to Medium	Prefer warmth and a minimum temperature of 55F. Water regularly in the Summer but allow soil to dry between waterings. Reduce watering in Winter.	No
Kalanchoe bryophyllum	Mother of Thousands	Full Sun to Part Shade	Dry to Medium	Prefer warmth and a minimum temperature of 55F. Water regularly in the Summer but allow soil to dry between waterings. Reduce watering in Winter.	No
Kalanchoe daigremontiana	Mexican Hat	Full Sun to Part Shade	Dry to Medium	Prefer warmth and a minimum temperature of 55F. Water regularly in the Summer but allow soil to dry between waterings. Reduce watering in Winter.	No
Kalanchoe fedtschenkoi	Purple Scallops	Full Sun to Part Shade	Dry to Medium	Does well as an indoor houseplant in average home temperature and humidity levels but thrives in temperatures of 50-75F. Water well but allow soil to dry between waterings from Spring to late Summer. Fall to Winter, reduce watering.	No
Kalanchoe millotti	Life Plant	Full Sun to Part Shade	Dry to Medium	Prefer warmth and a minimum temperature of 55F. Water regularly in the Summer but allow soil to dry between waterings. Reduce watering in Winter.	No
Kleinia fulgens	Orange Button Flower	Full Sun to Part Sun	Dry	A cool weather grower that produces spectacular neon orange flowers in the late fall/early winter. Water regularly during active growing season (Fall-Early Spring) but reduce watering in the summer. Leaves turn purplish in the sun. Prone to pests when in a moist area.	Unknown
Monadenium guentherii	Sausage spurge	Full Sun to Part Shade	Dry	Native to Kenya. Tolerates high temperatures and can tolerate temperatures as low as 40F. Makes an interesting container plant but is prone to rot in cold and wet conditions, so keep on the drier side during the winter. *Inner sap can be an irritant.	No

<b>Botanical Name</b>	<b>Common Name</b>	<b>Light</b>	<b>Water</b>	<b>Additional Care Info</b>	<b>Pet Safe (Cats/Dogs)</b>
Opuntia sp.	Prickly Pear	Full Sun	Dry	Native to the Americas. Grow best in dry, hot areas.	Yes
Orinthagolum caudatum	Pregnant Onion	Full Sun to Part Sun	Medium	Not a true onion. White flowers. Larger bulbs become "pregnant" with pups which may be removed to grow a separate plant. Requires very good drainage between waterings. *Toxic if ingested.	No
Portulacaria afra	Elephant bush	Bright Indirect Light	Dry to Medium	Native to South Africa. Dormant in the summer so reduce watering in the summer. Great for bonsai. Requires minimum temperature of 30F, so best grown indoors with supplemented light. Does best with at least 6 hours of light per day.	Yes
Sansevieria cylindricus	Snake Plant	Bright Indirect Light	Dry to Medium	Native to Africa. Prefer temperatures in the range of 50-85F. Water well but allow soil to dry between waterings. Reduce watering in winter.	No
Sansevieria ehrenbergii	Snake Plant	Bright Indirect Light	Dry to Medium	Native to Northeastern Africa. Prefers average room temperatures no lower than 50F. Water deeply but allow soil to dry between waterings.	No
Sansevieria trifasciata	Snake Plant	Full sun to full shade	Dry to Medium	Native to Tropical West Africa but first cultivated in China. Prefers temperatures of 70-90F but can tolerate tempertuarues as low as 50F.	No
Sedum adolphi	Sedum	Full Sun	Medium	Drought tolerant, not very demanding.	Yes
Sedum morganianum	Burro's Tail	Part shade	Medium	Water regularly Spring-Summer but allow soil to dry between waterings. Reduce watering in Winter. Prefers average summer temperatures of 65-70F and cooler temperatures (above 40D) during winter.	Yes
Senecio vitalis	Narrow-Leaf Chalksticks	Full Sun to Part Shade	Dry	Native to the Eastern Cape of South Africa. Grows actively during Winter and is dormant in the Summer.	No

Botanical Name	Common Name	Light	Water	Additional Care Info	Pet Safe (Cats/Dogs)
Xerosicyous danguyi	Silver Dollar Plant	Full Sun to Part Shade	Dry	Climbing vine that does best in full sun. Water regularly in the summer (active growth period) but allow soil to dry between waterings. For winter, reduce watering and keep at cooler temperatures of 41-48F.	<b>No</b>
